

EMS and Logistic Report

Division Chief of EMS/Logistics Frank Ehrmantraut

October 2026

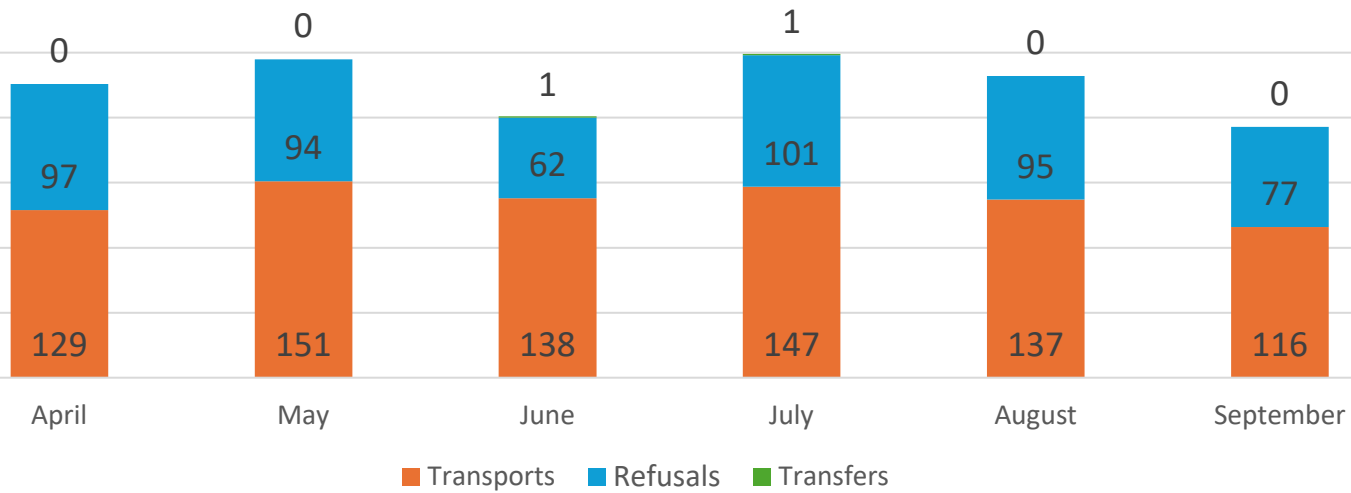

September Highlights

- Rural Health Transformation Program – There continues to be several meetings and actions taken to prepare for the process of standing up a regional community paramedic program.
- Regional RHTP Convening – Chief Ehrmantraut attended a regional convening of RHTP recipients in Cottage Grove to discuss the future of the grant including supported program, eligibility, and application processes.
- Pediatric Advanced Life Support – The District's in-house instructors taught a renewal class to members of the District. The ability to teach this class in-house is a significant cost savings for the District.
- PreHospital Trauma Life Support – Select members of the District attended a PHTLS class to learn how to be instructors of this curriculum. The District is currently in the process of applying to be a NAEMT training center and credentialing instructors. We hope to teach our first class to others in January. This ability will be a significant cost savings to the District and a benefit to our region.
- Midwives Training – We hosted the Oregon Midwifery Council as they provided instruction to our members, as well as members of other agencies, on the services that they provide, barriers that they encounter, and how EMS could best interact with them during emergencies.
- Blood Drive – The District hosted the Red Cross for our quarterly blood drive. We are consistently one of the best performing sites in the region.

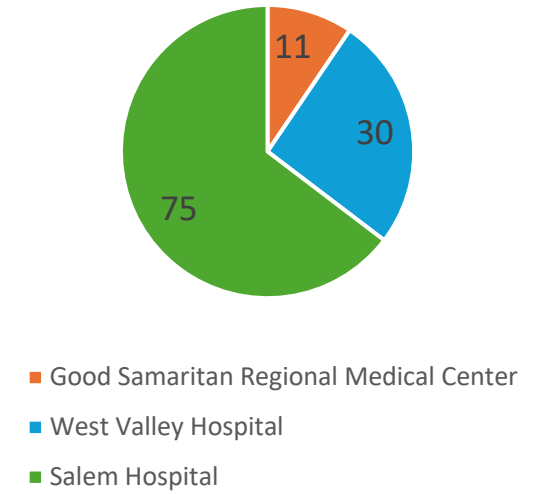

Shops and Apparatus Updates

- E469 – Pump main drain replaced after an internal failure
- B459 – Brake light replaced.
- M486 – Charging system for MDT and charting iPad improved to meet operational needs.
- E461 – Air compressor replaced.
- E471 – Radio failure due to corroded antenna, antenna replaced. Pressure relief valve was rebuilt due to corrosion. Annual service performed.
